My heart goes out to all of Annette's family, even though we were divorced we kept in touch every now and then. She called me about a month ago because she wanted to be the one to tell me about her health condition. I am so sorry for your loss.

What can you say about Annette. She was a true friend, with a smile and laugh that made you feel part of her circle. A heart of gold, who would help anyone in need. Her love of her son, friends, and animals, give you a very clear vision of who she was. A treasured soul, who will be missed by all who knew her. I know we will miss her in our little circle of friends. God speed Annette.

**Tribute from Chantal Scott**

Relation: Friend

To Annette's family my deepest condolences. We all have been very blessed having her in our lives. We shared so many stories and events in our lives together even having our daughters... I always had a lot of respect for her in many ways. Her accomplishments in everything she did was an example of the woman she became. The love she had for her children was undeniable. When she loved she loved. May she rest in peace and I am thankful for the last 36 years we had together.

My deepest condolences to Annette's family and many dear friends and colleagues . Although our relationship was brief , I'm very grateful for the opportunity to have known Annette. And always willing to do whatever she could do to help even if it meant putting her own life on hold . God bless you Annette and thank you for the gift of knowing you ! **Tribute from Susan Janzen**

Relation: I was her friend, and took her to all of her cancer treatments in Kelona, and was with her every step of the way

I am going to miss this lady an awful lot...

I am grateful to say that I was by her side through everything in the past four months... I would never have it any other way. She never complained through all of her suffering. The warrior is definitely the word for her. She wasn't alone. I was grateful to be there for her through it all she had many friends, her next-door, neighbors, Chloe and Bruce always checked on her as well and helped her with what she needed everybody that knew her knew what a fire cracker she was and if you really knew her, you knew how kind she was to heart of gold gonna miss her so much... many other friends in her life I would love to mention all your names who are stuck by her and checked in on her regularly. She always told me how much it meant to her. She felt safe and grateful to say she suffers no more. Did you miss her more than anything
