Tribute from John Williamson

Relation: friend

Upon reading that George had passed I immediately thought of the many times he would be outside the cabin tinkering at the end of the ski day. I enjoyed stopping by to have a "quick" chat with him. I always enjoyed hearing his version of the various situations that dad and him shared, on the ski hill or on one of the many boards involving fruit business. His version was always more diplomatic than how i remember dads. I appreciated Georges input when he would spent many hours on McKinney timing us and replacing the gates we would knock down. I'm not sure why but he always appeared to be enjoying himself. A great man who was a positive influence for me and everyone who had the honour to know him.
