Tribute from Gord Peterson

Relation: nephew

Reading through the obituary of Uncle Gord evoked many vivid memories of when we first heard our cousins were moving to Montreal. Mom always bragged about her little brother but I had no memory of him when a blond, crew-cut man showed up at our door one day. As I recall, he was a big man, with a hearty laugh and it didn't take long for any of the kids in our family to warm up to him. The fact that he and I shared the same name cemented our bond. He was an avid sportsman and two of his sons were about the same age as me and he promised we would have fun together and we did. To help with the fun, he "donated" his goalie pads and I remember many days with Bobby, David, John P. and myself playing street hockey long past dark using those pads. It was great having cousins living so close, especially those so involved in sports. Once they moved back to Winnipeg, however, I fell out of touch other than the occasional indirect contact. Mostly it was through my dad, who kept us apprised of Uncle Gord's moves and the various events of John M., Bob and David and Aunt Joan. I met Yvonne through my dad's eyes and Uncle Gord seemed so content and happy. My heart goes out to Yvonne, John, David and all the others in Uncle Gord's life. I can't help but remember Uncle Gord as a positive, smiling presence - fun loving and active. As I discovered from my reaction to his passing, his impact remains. Rest in peace Uncle Gord. Thanks for being a part of my life!

Tribute from Joseph Morton Woolley

Relation: long time acquaintances.

Our family got to know the Morrisons when they purchased a home in the rural municipality of N. Springfield on a hydro line next to our home
When Joan became ill & they could no longer live there they moved to Winnipeg. When they & my parents would get together to go out & would occasionally baby sit the boys.
When we moved to Pine Falls they visited us there.
I have fond memories of the Morrisons.
My condolences to all the family members.
Sincerely
Mort Woolley
