REMEMBERING

R. Myles Green

October 19, 1957 - August 5, 2024

On August 5th, 2024, Myles Green of Oliver passed suddenly and unexpectedly.

In the mid-70s, while serving in the armed forces, Myles spent time in Egypt. He enjoyed exploring and learning about the different cultures while he was there.

Myles came to live in the mountains in 2020 with his two dogs and settled into the quiet, country life easily as though that was where he was meant to be. He enjoyed watching his dogs run free and was able to experiment with and fine-tune his cultivation skills. He liked cars and motorcycles and loved driving truck.

His online presence, bringing a laugh and smile to so many people, will be sadly missed.
