Tribute from PETER JENSEN

Relation: - Friend and business associate

- I've been trying to find out where my old friend and business associate Vic ended up - knew he was business in Oliver and then disappeared - I knew Vic in the late 1960's at UBC when we were going through the UBC Engineering program

He eventually joined our Engineering and Surveying companies in Langley BC where he obtained his BCLS designation - Vic left our firms on good terms as he wanted to explore his own business options and eventually opened his Land Surveying and Engineering practice in Oliver, BC where I talked to him several times

- anyone that met Vic knew he was a really great guy and super funny - his UBC Engineering pranks are memorable - sad to hear that he passed away so young - was hoping to meet up with him again to discuss old times - my condolences to his family

- RIP Vic old buddy and associate

- as we say in the Engineering profession - "He was one helluva an Engineer"!
